

SECTION 1: Identification

1.1 Product identifier

Product name Simply Sanitizer

1.2 Other means of identification

Not applicable

1.3 Recommended use of the chemical and restrictions on use

Alcohol-based sanitizer for hand application

1.4 Supplier's details

Name On-Site Legionella Testing Address 4464 Lone Tree Way, #316

Antioch, CA 94531

USA

Telephone 925-320-3555

1.5 Emergency phone number(s)

925-320-3555

SECTION 2: Hazard identification

2.1 Classification of the substance or mixture

GHS classification

- Flammable liquids, Cat. 2
- Eye damage/irritation, Cat. 2A

2.2 GHS label elements, including precautionary statements

Pictogram

Signal word Danger

Hazard statement(s)

H225 Highly flammable liquid and vapor H319 Causes serious eye irritation

Precautionary statement(s)

P210 Keep away from heat/sparks/open flames/hot surfaces. No smoking.

P233 Keep container tightly closed.

P240 Ground/bond container and receiving equipment.

P241 Use explosion-proof electrical/ventilating/lighting equipment.

P242 Use only non-sparking tools.

P243 Take precautionary measures against static discharge.

P264 Wash hands thoroughly after handling.

P280 Wear eye protection/face protection/protective gloves.

P303+P361+P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse

skin with water/shower.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove

contact lenses if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical advice/attention.

P403+P235 Store in a well-ventilated place. Keep cool.

P501 Dispose of contents/container in accordance with applicable Federal, State

and local laws and regulations

2.3 Hazards not otherwise classified

No data available

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

Components

Component	Concentration
Ethanol (CAS no.: 64-17-5; EC no.: 200-578-6)	75% (volume)
Sucrose octaacetate (CAS no.: 126-14-7)	<0.2% (weight)

SECTION 4: First-aid measures

4.1 Description of necessary first-aid measures

General advice Consult a physician. Show this safety data sheet to the doctor in attendance.

Move out of dangerous area.

If inhaled Remove to fresh air, keep patient warm and at rest. If breathing is irregular or

stopped, give artificial respiration. If symptoms persist, get medical attention.

In case of skin contact Wash skin thoroughly with soap or mild detergent. Using a lanolin based

hand moisturizer is recommended. Call a poison center or doctor if irritation

develops or persists.

In case of eye contact Rinse cautiously with water for at least 15 minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. If irritation persists, get medical

attention.

If swallowed If vomiting occurs naturally, have victim lean forward to reduce the risk of

aspiration. Do NOT induce vomiting unless directed to do so by medical

personnel. Never give anything by mouth to an unconscious person. Call a poison center or doctor.

4.2 Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

In case of eye contact Causes serious eye irritation. Signs/symptoms may include redness,

swelling, pain, tearing, and blurred or hazy vision.

If inhaled No adverse effects are normally expected. Overexposure may cause

drowsiness or dizziness, headache, tiredness, nausea and vomiting.

In case of skin contact Prolonged and repeated exposure may cause skin irritation. Signs/symptoms

may include dry skin, redness, itching.

If swallowed May cause gastrointestinal irritation. Signs/symptoms may include abdominal

pain, stomach upset, dizziness, headache, nausea, vomiting and diarrhea.

Pre-existing skin, eye, and respiratory conditions may be aggravated by exposure to this product.

4.3 Indication of immediate medical attention and special treatment needed, if necessary

Treat symptomatically and supportively.

SECTION 5: Fire-fighting measures

5.1 Suitable extinguishing media

Use alcohol-resistant foam, dry chemical, carbon dioxide, or water spray.

5.2 Specific hazards arising from the chemical

Highly flammable liquid and vapor. Beware of vapors accumulating to form explosive concentrations. Container explosion may occur under fire conditions. Hazardous combustion products: Carbon oxides and other hazardous fumes and gases.

5.3 Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

Further information

Use water spray to cool unopened containers.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section 8.

6.2 Environmental precautions

Do not let product enter drains.

6.3 Methods and materials for containment and cleaning up

Eliminate all sources of ignition. Soak up with inert absorbent material. Keep in suitable, closed containers for disposal.

Reference to other sections

For disposal see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Handle in accordance with good industrial hygiene and safety practice. Avoid contact with eyes. Avoid ingestion and inhalation of vapor or mist. Use explosion-proof equipment. Use only non-sparking tools. Keep away from sources of ignition. No smoking. Take measures to prevent the build up of electrostatic charge. For precautions see section 2.

7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry, cool and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Ethanol (CAS no.: 64-17-5)

PEL-TWA: 1000 ppm (1900 mg/m³) (OSHA) REL-TWA: 1000 ppm (1900 mg/m³) (NIOSH)

TLV-STEL: 1000 ppm (ACGIH)

PEL-TWA: 1000 ppm (1900 mg/m³) (Cal/OSHA)

8.2 Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

8.3 Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Safety glasses are recommended if eye exposure risk exists during product handling/processing.

Skin protection

Protective gloves, such as nitrile gloves, are recommended in case of prolonged/repeated exposure during product handling/processing.

Body protection

The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection

Not normally required. If engineering controls and ventilation are not sufficient to control exposure to below the allowable limits then an appropriate NIOSH/MSHA approved air-purifying respirator with organic vapor/acid gas cartridge and particulate filter, or self-contained breathing apparatus must be used. Supplied air breathing apparatus must be used when oxygen concentrations are low or if airborne concentrations exceed the limits of the air-purifying respirators.

Thermal hazards

No data available.

Environmental exposure controls

Do not let product enter drains.

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance/form (physical state, color, etc.)
Odor

Odor threshold

pH

No data available.

Vo data available.

Clear liquid

Alcohol odor

< 23°C - estimated Evaporation rate No data available. Flammability (solid, gas) Not applicable. Upper/lower flammability limits No data available. Upper/lower explosive limits No data available. Vapor pressure No data available. Vapor density No data available. Relative density No data available. Solubility(ies) No data available.

Partition coefficient: n-octanol/water

Auto-ignition temperature

Decomposition temperature

Viscosity

No data available.

No data available.

No data available.

No data available.

Viscosity
No data available.

Explosive properties
Not explosive.

Not oxidizing.

Other safety information

No data available.

SECTION 10: Stability and reactivity

10.1 Reactivity

None under normal use conditions.

10.2 Chemical stability

Stable under normal storage conditions.

10.3 Possibility of hazardous reactions

No data available.

10.4 Conditions to avoid

Keep away from direct sunlight, heat and sources of ignition.

10.5 Incompatible materials

Strong oxidizing agents, acids and bases.

10.6 Hazardous decomposition products

No data available.

SECTION 11: Toxicological information

Information on toxicological effects

Acute toxicity

Based on available data, classification data are not met

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation.

Acute and delayed symptoms and effects from inhalation, eye contact, prolonged skin exposure, and ingestion are listed in Section 4.

Components:

Ethanol (CAS no.: 64-17-5) LD50 (oral) – rat - 7060 mg/kg LD50 (skin) – rabbit – 20000 mg/kg LC50 (inhalation) – rat – 20000 ppm/10H

Skin corrosion/irritation

Prolonged and repeated exposure may cause skin irritation. Signs/symptoms may include dry skin, redness, itching.

Serious eve damage/irritation

Causes serious eye irritation. Signs/symptoms may include redness, swelling, pain, tearing, and blurred or hazy vision.

Respiratory or skin sensitization

Based on available data, classification data are not met

Germ cell mutagenicity

Based on available data, classification data are not met

Carcinogenicity

Based on available data, classification data are not met

IARC: Based on available data, no component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC.

NTP: Based on available data, no component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: Based on available data, no component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Reproductive toxicity

Based on available data, classification data are not met

STOT-single exposure

Based on available data, classification data are not met

STOT-repeated exposure

Based on available data, classification data are not met

Aspiration hazard

Based on available data, classification data are not met

Additional information

Overexposure may cause irritant effects, headache, dizziness, tiredness, nausea and vomiting. Pre-existing skin, eye, and respiratory conditions may be aggravated by exposure to this product.

SECTION 12: Ecological information

Toxicity

No data available on product

Persistence and degradability

No data available on product

Bioaccumulative potential

No data available on product

Mobility in soil

No data available on product.

Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

Other adverse effects

No data available on product.

SECTION 13: Disposal considerations

Disposal of the product

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

Disposal of contaminated packaging

Dispose of as unused product.

SECTION 14: Transport information

DOT (US)

UN Number: 1170

Class: 3

Packing Group: II

Proper Shipping Name: Ethanol solutions

IMDG

UN Number: 1170

Class: 3

Packing Group: II

Proper Shipping Name: Ethanol solutions

IATA

UN Number: 1170

Class: 3

Packing Group: II

Proper Shipping Name: Ethanol solutions

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations specific for the product in question

SARA 302 Components

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 311/312 Hazards

Fire Hazard, Acute Health Hazard

SARA 313 Components

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.
